**What makes ReCAP Data different from other**

ReCAP Banking Database is a thorough, *annually updated* and verified database that is checked for accuracy and completeness utilizing the most reliable sources and

rigorous processes available. Only ReCAP's Banking Database allows the user to access fourteen years worth of deposit history, access bank records by all previous

names, and keeps users informed about specific historical location specs. ReCAP records are individually researched and verified to ensure the accuracy.

# The Most Comprehensive Banking Database Available

## Data Sources

The data is compiled from commercially and publicly available sources as well as CAP's own proprietary data for the banking industry, including:

- Directories from HQ
- Internet Chain Directories
- FDIC Information
- Public/State Data
- Retail Guides and Magazines

## Vintage

ReCAP's Banking Database is updated annually in January and is released in early February. Current release:

*February 2009*
