What makes ReCAP Data different from other databases?

ReCAP Insurance Agent Database is a thorough, **continually updated** and verified database that is checked for accuracy and completeness utilizing the most

reliable sources and rigorous processes available. **Other location database files require you to wade through duplicate records and misclassified data and**

include non-“Agent” locations like corporate offices and claims centers. ReCAP records are individually researched and verified to ensure the accuracy.

The Most Comprehensive Insurance Agent List Available

Data Sources

The data is compiled from commercially and publicly available sources as well as **CAP's own proprietary data** for the retail industry, including:

- Chain Directories from HQ
- Internet Chain Directories
- Franchise Circulars
- Business List and Phone Data
- Public/State Data
- Retail Guides and Magazines
- Phone Verifications
